PRODUCT LIST

WWW.AFRICANSNAKEBITEINSTITUTE.COM

TO OUR CUSTOMERS,

The African Snakebite Institute has gone to great lengths to secure quality products for our market. We already have the largest range of snake tongs and snake hooks available in Africa and our JM snake tongs are of the highest quality and each product is guaranteed.

Snake tongs and snake hooks are vigorously tested during our snake handling training sessions and we receive very positive feedback from our corporate clients that make use of ASI products.

Wherever we struggle to find suitable products for our clients, we develop our own and both our lightweight snake gaiters and standard snake gaiters have become best-sellers to corporates, hunters, hikers, fly fishermen and even competitive mountain bikers. We have also developed gaiters for children.

Our range is always expanding and now includes clothing, branded coffee mugs, sterling silver jewellery, books and posters. We are also the largest supplier of scorpion torches in Africa and regularly update this range with the latest technology.

Please check out our product list and if there are related products that you need and that are not listed, do notify us and let's see if we can assist.

Snake Tonggs

JM Snake Tong Range

The new and improved design of our best selling PRO range. These tonggs have been redesigned to include an extended top jaw section, allowing better grip on large snakes without injuring them. Locally manufactured - a Proudly South African product. Comes with a guarantee. Available in Red, Blue or Black or Purple.

A ASI JM50 Snake Tong

A short tong ideal for indoor use, especially when handling captive snakes. Measures 80 cm, weighs 600 g.

Available in Red, Blue and Black

SKU: 111-002-001/002/003

R795.00

B ASI JM70 Snake Tong

A short tong ideal for indoor use, especially when handling captive snakes. Measures 100 cm, weighs 680 g.

Available in Red, Blue and Black

SNAKE TONGS

Best-seller

A JM150 Snake Tong

The new and improved design of our JM150 tongs. The 1.5 m tongs are by far our most popular snake tong for both discerning corporate and private clients. This tong is ideal for removing problem snakes, especially on mines, game farms and game lodges. The extra 50 cm (compared with the JM100) keeps the snake further away from the handler and is thus far safer.

Measures 154 cm, weighs 800 g and comes with a guarantee.

Locally manufactured - a Proudly South African product.

Available in Red, Blue or Black.

SKU: 111-002-031/033

R1350.00

B ASI JM180 Snake Tong

The JM 180 tong is ideal for removing snakes from hard to reach places, like trees or thatch roofs. The extra 74 cm (compared with the JM 100) keeps the snake further away from the handler and is thus far safer.

Measures 184 cm and weighs 850 g and comes with a guarantee.

Locally manufactured - a Proudly South African product.

Available in Red or Blue

SKU: 111-002-041/043

R1395.00

C ASI JM200 Snake Tong

Our longest snake tong at 2 m and weighs 860 g.

Ideal for removing snakes from a safe distance, especially those under beds or in trees.

Locally manufactured - a Proudly South African product.

Available in Red or Blue.

SKU: 111-002-051/053

R1450.00

SNAKE TONGS

ASI Budget Snake Tong 1 m

Our locally assembled economical tongs – ideal for people who remove a few snakes a year. Locally manufactured - a proudly South African product. Comes with a guarantee.

Total length 1.1 m, weight 610 g.

SKU: 111-001-003

R895.00

JM Snake Handler Tong

The JM Snake Handler Tong has been designed with the serious snake remover in mind. Shorter than our 1 m tongs to enable the snake remover to neck the snake comfortably.

SKU: 111-001-010

R1200.00

ASI JM Collapsible Snake Tongs

Featuring our unique design that doesn't require any pins to hold the trigger in place. Ideal for travellers or to store in the boot of a vehicle when not in use.

SNAKE TRAPS

ASIT 1.0 Electronic Snake Trap

Introducing the new ASIT 1.0 Electronic Snake Trap. A collaborative project between Lumin8 and the African Snakebite Institute, and a first in the world for electronic snake traps.

Tried and tested, these electronic snake traps are extremely useful for snake removal, especially on mines, hostels, barracks, and warehouses.

The trap is made of plastic tubing, and has a computerised circuit board with various sensors and mechanical parts. It is baited on the inside with a chicken egg or frozen mouse, and the idea is that the snake will smell the bait and enter the tube. The entrance to the trap has a mechanised trap door. It is battery powered and lasts for more than a month on a set of alkaline batteries. The trap also makes provision for optional extras such as a GSM Modem for cellular communication, and an external solar panel or power source. When switched on, the trap is immediately reset, shows the battery status, resets the trapdoor to its zero position and goes into sensor mode.

As the snake enters the trap, its presence is detected by the various sensors, and once in the trap, the trap door closes behind it.

If the trapdoor touches any part of the snake's tail or body, it will immediately reopen and close again, ensuring that the snake is not harmed.

The trap will then remain closed until the snake is retrieved by a qualified snake handler on site.

ASI Hunters Gaiters Lite

ASI Hunters Snake Gaiters – proudly made in South Africa, are flexible snake gaiters that weigh 240 grams each. The outer shell is made of Authentic 500D Cordura® with a double acrylic coating, which is water-resistant and calendered for softer handling, while the inner shell is made of two layers of DuPont™ – Kevlar® micro filament yarn. It is very finely woven material that renders exceptional protection against fragmentation, with an anti-stab capability.

These two layers are stitched into an inner casing of high tenacity nylon (parachute material). The gaiters are one size fits all with a YKK® zip at the back. Each gaiter is adjustable at the back and has a loop for a shoelace to fit through on the underside. The Hunters Snake Gaiters have been tested against bites from the Puff Adder, Cape Cobra, Snouted Cobra and Black Mamba with no penetration during testing.

SNAKE GAITERS

ASI Geo Snake Gaiters Lite

ASI Geo Lightweight Snake Gaiters – proudly made in South Africa, are flexible snake gaiters that weigh 220 grams each. The outer shell is made of Authentic 500D Cordura® with double Acrylic coating, water resistant and calendered for softer handling while the inner shell is made of two layers of DuPont™ – Kevlar® micro filament yarn. It is very finely woven material that renders exceptional protection against fragmentation, with an anti-stab capability.

These two layers are stitched into an inner casing of high-tenacity nylon (parachute material). The gaiters are one size fits all with a YKK® zip at the back.

Each gaiter is adjustable at the back and has a loop for a shoelace to fit through on the underside, and also includes an adjustable strap that goes underneath the shoe / boot, to keep the gaiters secured in place. The Lightweight Snake Gaiters have been tested against bites from the Puff Adder, Cape Cobra, Snouted Cobra and Black Mamba with no penetration during testing. Measure 38 cm. in length and weigh 220 g each.

Smart Pressure Bandage

Our Smart Pressure Bandages have printed rectangles on them and when applying the bandage, it must be stretched until the rectangles form squares – the correct pressure is attained every time.

Bandages measure 10 cm x 2 m and are washable and reusable.

Only for use in cases of Black Mamba and Cape Cobra bites.

Comes with a FREE First Aid for Snakebite Booklet.

SKU: 104-001-001-1

R195.00

ASI Snakebite Bandage

The ASI snakebite bandages is a demarcated stretch bandage with continuous indicators on them.

When applying the bandage, it must be stretched until the rectangles form squares – thereby applying the the correct pressure for neurotoxic envenomation.

Only for use in cases of Black Mamba and Cape Cobra bites.

Bandages measure 10 cm x 1.4 m

Price includes a FREE First Aid for Snakebite Booklet.

GEFÄHRLICHE SCHLANGEN DES SÜDLICHEN AFRIKAS

Das südliche Afrika beherbergt Einhundertdreizehzig verschiedene Schlangengattungen. Zweiundsechzig Arten sind nicht giftig, während Neunundzwanzig schmerzhafte Bisse zufügen können. Zwanzig Arten gelten als potentiell tödlich.

SEHR GEFÄHRLICH (Very Dangerous) | **GEFÄHRLICH** (Dangerous) | **KEINERFALLS** (Not Dangerous)

NOTFALLPROTOKOLL
IM FALLE EINES SCHLANGENBISSES
 1. Bewahren Sie das Opfer, stellen Sie es ruhig und transportieren es unverzüglich zum nächstgelegenen Krankenhaus.
 2. Im Falle einer Bissverletzung bitten Sie den Arzt um eine Blutuntersuchung, um sicherzustellen, dass keine Kreuzreaktion vorliegt.
 3. Bei der Behandlung von Bissverletzungen ist es wichtig, dass keine Kreuzreaktion bei einer ungewissen Bissart festgestellt werden kann.

COMMON SCORPIONS OF SOUTHERN AFRICA

Most cause little or no pain. | Most are very dangerous. | Harmless. | Very dangerous. | Dangerous. | Not dangerous.

EMERGENCY PROTOCOL
STAY AWAY FROM DANGEROUS AND VERY DANGEROUS SCORPIONS. MUST BE TREATED AS A MEDICAL EMERGENCY.
 1. Transport the individual to hospital without delay.
 2. Immobilise the affected limb to slow the spread of venom.
 3. If the victim shows symptoms, apply medical attention or call the Poisons Information Centre for the nearest hospital (0800 101 777).

COMMON SPIDERS OF SOUTHERN AFRICA

Southern Africa has well over 2,200 known species of spiders with very few that are of medical importance. Most 'spider bites' are not spider bites but wounds caused by infections and other invertebrates. There has never been a fatal spider bite in Southern Africa.

EMERGENCY PROTOCOL
BITES FROM MEDICALLY SIGNIFICANT SPIDERS MUST BE TREATED AS A MEDICAL EMERGENCY.
 1. Transport the victim to hospital without delay.
 2. Immobilise the affected limb to slow the spread of venom.
 3. If the victim shows symptoms, apply medical attention or call the Poisons Information Centre for the nearest hospital (0800 101 777).
