(Dipsina multimaculata)

/ENOMOUS

**HARMLESS** Delalande's Beaked Blind Snake (Rhinotyphlops Ialandei)

(AS)

SNAKEBITE

1 Keep the victim calm, immobilized and transport the victim to the closest hospital without delay.

2 If the victim stops breathing, resort to artificial respiration or make use of a Bag Valve Mask.

3 Call the Poison Information Centre helpline for further advice: 0861 555 777.

**JOHAN MARAIS** is the author of various books on reptiles including the best-seller A Complete Guide to Snakes of Southern Africa. He is a popular public speaker and CEO of the African Snakebite Institute. The African Snakebite Institute (ASI) offers a variety of courses including Snake Awareness, Scorpion Awareness and Venomous Snake Handling. ASI is accredited by the International Society of Zoological Sciences (ISZS) and Travel Doctor-approved service provider. The courses are also accredited by the Health Professions Council of **South Africa (HPCSA)**. ASI is the largest provider of quality snake handling and safety equipment in Africa.

# EMERGENCY PROTOCOL IN THE EVENT OF A SNAKE BITE

## DO NOT —

... apply a tourniquet.

... cut and suck the wound.

- ... use ice or very hot water.
- ... give the victim alcohol.
- ... apply electric shock.
- ... inject antivenom randomly. Antivenom (if required) must be administered by a doctor in a hospital environment.
