EMERGENCY PROTOCOL

IN THE EVENT OF A SNAKE BITE

1 Keep the victim calm, immobilized and transport the victim to the closest hospital without delay.

2 If the victim stops breathing, resort to artificial respiration or make use of a Bag Valve Mask.

3 Call Mike Fabricius, Conservancy Manager +27 (0)79 156 9950 or the Poison

Information Helpline +27 (0) 861 555 777

DO NOT —

... apply a tourniquet.

... use ice or very hot water.

... cut and suck the wound.

... give the victim alcohol.

... apply electric shock.

... inject antivenom randomly. Antivenom (if required) must be administered by a doctor in a hospital environment.
